TEST REPORT No. ESD 48475/01-01

Date: 17th April 2001

Page: 1 of 1

Your Ref: 15606

DATE RECEIVED: 10th April 2001

DESCRIPTION: Loading to failure of a Tubular Folding Bed (Re:- Sussex CB700)

INTRODUCTION

The Product Testing Department of Scientifics Group Services were asked to perform load testing on a tubular folding bed.

METHOD

The loads were applied by using dead weights starting from the centre outwards to evenly spread the load.

RESULTS

The bed frame withstood a total load of 1016kg (140stone) for this reason no further load was added to the bed. Therefore it is our opinion that this bed is adequate for the purpose of which it was intended.

Tested by: L. Heathcock

Test Date: 12th April 2001

Authorised by:

D. Skeldon, Testing Supervisor

18 APR 2001
