TEST REPORT No. ESD 49902/01-01

Date: 30th October 2001 Page: 1 of 1 Your Ref: 16175

DATE RECEIVED: 22nd October 2001

DESCRIPTION: Loading to failure of a Harlech CB15 bedstead.

INTRODUCTION

The Product Testing Department of Scientifics Group Services were asked to perform load testing on a Harlech CB15 Bedstead the method and results are as follows.

METHOD

The loads were applied using dead weights starting from the centre outwards to evenly spread the load.

RESULTS

The bed frame withstood a total load of 612kg (84stone) for this reason no further load was added to the bed; therefore it is our opinion that this bed is adequate for the purpose of which it was intended.

Tested by: L. Heathcock

Test Date: 30th October 2001

Authorised by:

D. Skeldorn, Business Manager
